Broeze, J. J. and Stillebroer, C.
UTILIZATION OF LEAN MIXTURES IN AVIATION ENGINES: ADAPTATION OF ENGINE AND FUEL TO THE OPERATION OF AVIATION ENGINES ON LEAN MIXTURES. [1963] 11p (figs omitted)
Order from SLA $1.60 63-18217

Trans. of Rev[ue de l']Institut] Fran[ais du] Pétrole [et Annales des Combustibles Liquides] 1949, v. 4, p. 653-660.

DESCRIPTORS: *Aviation fuels, *Fuel consumption, *Airplane engines, Operation, Ignition, Ignition lag.

Fuel economy is the main incentive to lean mixture operation. The factors are discussed which limit in practice the application of lean mixtures and restrict the advantages theoretically to be gained. Experiments showed that combustion delay following ignition is the principal restricting factor, not combustibility. (Materials--Fuels, TT, v. 10, no. 11) (over)
